Largest sun deck in her class

4

Huge living spaces

OVERVIEW

Moon 60 Power OVER THE MOON redefines the concept of luxury and space for catamarans, making her a perfect combination of a traditional sailing yacht with modern design. She has a personalized design, offering her guests great conditions for relaxation. OVER THE MOON has 4 double guest cabins for up to 8 guests that are catered by the crew of 3. She exudes elegance and sophistication, her bulwark trim adorned with exquisite teak wood that imbues it with a timeless essence. The newly conceived connector concept and the elongated line of the superstructure seamlessly blend into the overall design, creating a unique and comfortable haven for her guests. This innovative design has resulted in the creation of the largest sun deck in its class, a spacious expanse where guests can bask in the sun. Furthermore, to enhance the catamaran's appeal and provide additional entertaining space, the designers have envisioned a spacious fly bridge, with a Jacuzzi for 4 guests. This elevated platform, with its 360-degree panoramic views of the yacht's surroundings, offers an unparalleled vantage point for taking in the breathtaking scenery and basking in the fresh air. The living area of Moon 60 Power OVER THE MOON is equally impressive, seamlessly merging the aft dining area, salon, and forward cockpit into a single, expansive level. This uninterrupted flow of space fosters a sense of openness and togetherness, encouraging guests to mingle and create shared experiences. The salon, with its ample seating and sophisticated decor, provides a convivial setting for gatherings and relaxation, while the aft dining area caters to formal occasions and special dinners. With walk-in beds and full height ceiling not available on mono hulls, Moon 60 Power OVER THE MOON offers her guests a unique and ultimate comfort in an environment friendly package made of the highest quality materials. Her layout offers a 4-cabin layout (1 Master cabin, 1 VIP cabin and 2 guest cabins), as well as a crew cabin and a high comfort equipment level.
